FS Flexy

Izo Pro

Ferrari Soltis

FS Flexy

FS Flexy fabric, which is used in all Four Seasons products, is a light weight PVC-based material. Consisting of 3 layers, it is highly resistant in many ways including being fully flame retardant and water resistant as well as filtering UV light. Exclusively produced for Palmiye, it is easy to clean and is available in white, ivory and grey.

Izo Pro

Patented by Palmiye, Izo Pro is a unique example of what Nano technology can offer. Its insulating functions mean that it ensures a room is kept cool in the summer whilst making it easy to heat during the winter months. As well as being considered soundproof it plays a big part in energy saving and Green technologies.

Ferrari Soltis

Specially designed for Palmiye in such a way that it is see-through despite still blocking the sun and 95% of UV rays, this fabric has a natural citronella scent and acts as a subtle insect repellent that gently perfumes the area.

Palmiye with an international network and organizational structure, is represented in many countries worldwide.

The values of each different culture and their unique architectural concepts, inspire and are reflected in Palmiye's products.

As an open-minded innovator, Palmiye operates sensitively, tailoring distinctive and incomparable products, where the thoughts and feelings of world famous architects and designers are brought to life.

Palmiye, through its team of professional designers, architects and engineers, shares possible solutions with customers and ensures that they experience the true meaning of the word "unique".

Taking their place within the ever growing 'smartphone' culture, the MyPalmiye App ensures that control of each product is now with the greatest of ease.

By channelling their extensive knowledge and experience with shade systems into retractable products, which can be used all year round, their professionalism has entered a new dimension.
